

The conservative/Republican/big monopoly sycophants are contributing to the ruining of America and the world with their helter skelter rush headlong into greedy , negative , undemocratic corruption of public policy and public policy making by (powell) rushing a June 2 vote on monopolizing our already stolen airwaves....POSTPONE THE VOTE! Enforce the spirit of the fairness doctrine! give democracy, the people, and free speech a chance!
Your greed will come back to haunt you if you don't.
